Subject: Fw: Media Request for Lab Data
Ronnie:
See information below from Joseph Hubbard in External Affairs. This media person is looking for lab data associated with our sampling of containers on the site. I see no reason we should not be making this information public. I can make certain documents on the osc.net site public and satisfy this request or I can send the information to Joseph to send it directly to this person. Please check with the front office so we can move forward on this request.
Thanks

Who should I talk with (Ronnie?) and are you in today?
I will be on your floor in the next 20 mins.

Hi Gary,
The reporter with Texas Observer circled back yesterday wanting to know if we reviewed the samples and can she have the results.
